Dec. 3, 2008

Dear Mr. Hamada and Yoko:

Our mutual friend, Dr. Masaru Emoto, has urged me to contact you to invite your participation in LIVE H2O, "The Concert for the Living Water" scheduled for international venues next Summer Solstice, June 19-21, 2009.

The attached press release explains what we are doing to follow the Creator's direction and fulfill John Lennon's vision for world peace, health, ecological sustainability, and prosperity for "all the people."

Long ago I posted your essay "We Are All Water", Yoko, on LIVE H2O.org because it relays so beautifully and perfectly our message and mission.

John encouraged us to develop "a Plan." We have been "doing what we can" and now have a definitive "Plan" that Dr. Emoto and I wish to explain to you, and advance with you. The Concert for the Living Water includes a "hydrosonic experiment" that marries the "universal solvent" with music--the "universal language"—to administer the "universal healer"—LOVE.

The "Plan" incorporates musical performances and large population participation using two proven musical/spiritual keys associated with miraculous transformations—the frequency of LOVE, 528Hz, and the frequency of universal resonance, 417Hz. The key of LOVE is the "MI" note of the original Solfeggio musical scale that was secreted (or imprisoned as The Beatles movie metaphore Yellow Submarine depicts.) I am convinced this is the "Key to the House of David" that opens spiritual doors that shall be Divinely opened to restore humanity to its full peaceful creative potential. This "LOVE tuning," frequency 528Hz, is a core creative vibration—the energy that produces MIracles that I have witnessed, written about, and lectured on for years based on Bible code revelations that have now been proven scientifically, and confirmed mathematically.

I am asking for your prayers and wisdom; to please lend your celebrity in support of this event, and ideally join our alliance in actively advancing this "Plan." Please do what the Creator your heart to do with this opportunity to serve humanity and evolve civilization spiritually far beyond its current limitations. This will be a historic event, and we request that you pray on what your possible role(s) might be in cooperatively actualizing this impressive and compelling "Plan."

Dr. Emoto and I share this opportunity optimistically knowing leading experts in multiple fields, including musicology, healthcare, and physics, endorse this "Plan," its "experimental design," and spiritual premise honoring Water's consciousness, intelligence, and responsiveness to LOVE. We share

the view that this event will physically and metaphysically impact Water musically to benefit humanity optimally; open hearts globally with LOVE, accelerate the Spiritual Renaissance, promote progress towards world health, and prepare human hearts for the prophesied thousand years of world peace. We have committed our lives to advance this service, as you have, likewise, obviously done.

Thank you, in advance, for responding to this Waterful calling to musically restore “Pepperland,” and her people, to full living, loving, and creative color.

Most humbly and respectfully,

Leonard George Horowitz
Co-producer, LIVE H2O.
