

**SUMMER SOLSTICE, JUNE 19-21, 2009**

**“THE POWER OF 528 TO SET EVERYTHING STRAIGHT”**

**APPEAL TO AGENTS AND AGENCIES REPRESENTING  
CELEBRITIES AND MULTI-MEDIA TALENT**

It gives me great pleasure to invite your participation in actualizing a celebration that may be the most important long-awaited event in Earth’s history—The Concert for the Living Water, [LIVEH<sub>2</sub>O](#).

My name is [Dr. Leonard G. Horowitz](#) (a.k.a., Dr. Len Horowitz, and I am honored to serve as Executive Producer in planning this international event.

Next Summer Solstice (June 19-21, 2009) performers will grace at least nine stages internationally at venues adjacent important bodies of Water. The event embraces everything humanity needs to know and do with Water for optimal sustainability and progress towards lasting peace, world health, and general prosperity.

Our Plan calls for an unprecedented interactive Internet broadcast engaging millions of people with at least 144,000 unified voices advancing a “LOVE Water Experiment” on Sunday the 21<sup>st</sup>. Our entire audience will broadcast hydro-soncially in the LOVE frequency (now determined to be [528Hz.](#)) into “The Living Waters” around the planet. This prayerful chant lasting 81 minutes will be lead by the venerable Buddhist monk [Traga Rinpoche](#), with representatives from all major religions and Native cultures collaborating. This sacred ceremony will be broadcast from holy spiritual grounds near

Hilo, Hawaii. These 144,000 voices transmitting through a virtual “[Temple](#)” in cyberspace will be augmented by the voices of the local concert-goers. The resulting sound, resonating with heartfelt Loving intent to affect positive outcomes, will be transmitted from these multiples stages, and with many smaller venues worldwide, into the world’s Water wonders through special hydrosonic transducers being prepared at this time.

Water celebrants worldwide will be singing, chanting, toning, drumming, and praying for Water’s preservation, pollution cessation, remedial creationistic expression, hydrosonically-inspired peace, an end to preventable poverty, and the termination of treatable illnesses on this planet using various applications involving Water. A generally Loving outcome affecting all human hearts is expected, and will even be measured by behavioral scientists and sociological data analysts.

This, to the best of my knowledge, with profound humility, I assert and celebrate as the fulfillment of Bible prophesy in celebration and application of the prophesied key to the House of David cited in Isaiah 22:22 and Revelation 3:7. This key, I am convinced (although it remains for the world to judge) is the musical note of LOVE. With instruments and voices tuned to [528Hz](#) and harmonic 417Hz for “remedial resonance,” in rhythm with the human heartbeat (1.45Hz), we shall dramatically shift the energy on this planet positively, spiritually, and enduringly.

This is the music to which all of nature is already vibrating. It is the main reason the botanical world is mostly green ([528Hz](#)’s color). Divine harmonies transmitted through Water affect everything, and is the door through which humanity can evolve, unify, and commune with our Most High—the Source of Life everlasting.

In essence, this LOVE tone open spiritual/energetic portals for establishing peace on Earth through civilization’s spiritual edification/resuscitation.

This is an academic and spiritual preparation for humanity’s transition into the Age of Peace, paradigm-shifting transformation, and generalized “enlightenment.”

Following 3000 years of encryption in the Bible, In 1998, I was called and honored to co-author a bestselling book, [Healing Codes for the Biological](#)

[Apocalypse](#), containing the most inspiring musical knowledge the world has ever known. This music acts vibrationally with Water to heal people.

In essence, [LIVEH<sub>2</sub>O](#) will marry this music—the “Universal Language” with the “Universal Solvent”—Water, to produce the “Universal Healer”—LOVE. The concert will be broadcast internationally over the Internet, and hydro-sonically throughout all oceans, using advanced multi-media technologies. We will, thus, induce the Living Water to become a “LOVE potion,” so to speak—a homeopathic vibrating liquid crystal matrix of LOVE that will be subtly felt by every whose bodies are mostly made of Water.

This is truly a most Divine service, a virtual “Global Baptism,” that shall, according to Native and religious prophets and prophecies, return our global village to some semblance of ecological sanity and spiritual integrity.

Besides advancing many positive themes, it is reasonable to predict [LIVEH<sub>2</sub>O](#) will advance creative consciousness, ecological sustenance, and planetary peace by focusing human minds on Water’s ability to act in harmony with the 5<sup>th</sup> note of the original Solfeggio musical scale, “SO”—short for “Solve Pollute” (in Latin) or “Solve the Pollution/Solve the Problem” (in English).

For this Grand Resolution (Re-Solution—Return to order through the crystal clear Water) and Humanitarian Mission, we have been selected to serve in gathering the greatest hearts, minds, and performers to celebrate our transformation into the Age of Peace. And this is why I am issuing this appeal to you as an agent and/or agency representing talent who may wish to contribute to the success of this historic event, and require your permission to do so.

Explaining further, [LIVEH<sub>2</sub>O](#) will feature:

- “Grassroots” Organization of Nine Featured Venues, and Numerous Others, Simulcast Over the Internet from Locations Adjacent the Planet’s Most Precious Water Wonders;
- Worldwide Vocal/Musical Audience Participation with a Web Design Facilitating the Personal Selection of Venue(s) Attended with Optimal Interaction Capabilities;

- Educational, Musical, and Spiritual Contributions by World Leading Authors, Scientists, Scholars, Holy Persons, Celebrities, and Artists (many of whom have already graciously accepted this invitation);
- Music played and sung in the “Key of LOVE,” [528Hz](#), and REsonance (417Hz) to restore Water’s purity and promote health, peace and prosperity internationally;
- Evolutionary Knowledge About Water and Advancing Water Technologies such as Pollution Free Hydrogen Fuels and Engines (“Water Burning”) Cars; Trace Mineral Water Containing Nano-Silver to Terminate Infectious Diseases, and much more;
- What Water Really Is, and How it Works Physically and Metaphysically/Spiritually;
- What Music Really Is and Does Physically and Spiritually in Water, Especially Your Body Water;
- Expert Presentations About Hydro-sonic Science and the Rapidly Advancing, Exponentially Accelerating, Spiritual Renaissance; and
- The “LOVE Water Experiment” to Bless The Living Water and Perform a Virtual Global Baptism.

Again, The Concert for the Living Water, [LIVEH<sub>2</sub>O](#), takes place during the Summer Solstice, 2009:

**Friday, June 19 is Day 1**—24 Hours of Edutaining Presentations and Programming Focusing on Water and the Way Music Affects us Hydro-sonically as a Creative and Restorative Technology.

**Saturday, June 20 is Day 2**—24 Hours of Musical Performances by “Conscious” Musicians, Bands, and Vocalists Volunteering in this “Hydrosonic Experiment” to Save Lives, Our Water, and Prevent Further Degeneration of Our Planet and Quality of Life.

**Sunday, June 21 is Day 3**—24 Final Day of Music and Presentations by Spiritual Leaders Culminating in A Global Prayer/Chant/Human Chorus—81-minutes of Joining Voices Internationally to Celebrate and Broadcast the Sound of LOVE, [528Hz](#) frequency, to the Living Water(s).

Anticipated outcomes of [LIVEH<sub>2</sub>O](#) include:

- Worldwide LOVE increase—human hearts vibrating/naturally resonating/“opening” with LOVE by broadcasting the LOVE tone, [528Hz](#),

with instruments and voices tuned to affect Water. Smaller Water bodies internationally (including human ones) will entrain and, likewise, resonate with LOVE in response to the music.

- Spiritual Renaissance solidly supported and even harmonically accelerated.
- Stress and disease reduction from positive cognitive and affective outcomes.
- Water conservation, purification, and production increased globally. (Atmospheric water collectors will be featured.)
- Human hydration levels increase worldwide prompting dramatic improvements in health and quality of life.
- Greater popular pressure to transition to reliable renewable Water-based energy technologies. (e.g., hydrogen fuels; and hydroelectric options such as Water wave energy generators tapping the energy of the oceans to sustain us.)
- Continued networking as triggered by this event offering new paradigms, industries, “green” technologies and products, and businesses advancing creative ideals, hydro-sonics, and evolving consciousness.

Please contact me to discuss how we can advance your causes and talent in making historic contributions.

Yours in the Spirit of 528,  
Dr. Leonard G. Horowitz,  
Executive Producer
